

The above photos are of a monument that the people of Allegheny County had erected in honor of the officers and enlisted men who were from the Pittsburgh area whom served in the Spanish-American War. April 27th 1893 to October 22nd 1893.

The names of the officers are listed on the monument for all to see.

This monument can be found on Corrigan Drive across the street from the black 'n gold play ground just down from the big round horse barn.

This grove is the last or one of the last groves in South Park built by the CCC campers created by President Franklin Roosevelt in March 1933. He created this project with the intention to promote environmental conservation and to build good citizens through vigorous disciplined outdoor labor. The young men earned \$30 a month of which \$25.00 was sent back home to their family.

Roosevelt's Tree Army lived in camps under quasi-military discipline across rural America.

This shelter is located on Corrigan Drive across from the big horse barn next to the Spanish-American War Monument.
