

## Marc Bowman Bio for Friends of South Park

Marc considers himself an avid runner and not so avid mountain biker. He's an active volunteer in The Whitehall Wildlife Management Committee, Vegan Pittsburgh, and (of course) The Friends of South Park.

For a living, Marc works for the School of Medicine at the University of Pittsburgh as a senior Web developer and analyst.

Marc loves the park and you may find him there on any given day either running the trails and roads or biking in the woods.
